

SUPPLEMENTARY REPORT FORM

2-87 REV. 7/74

OFFENSE NO.: 97-021 1. -79	OFFENSE REPORTED: Homicide	COMPLAINANT/VICTIM'S NAME Dalia Saucedo
----------------------------------	-------------------------------	--

On this date at approximately 7:20 p.m. reporting officer was dispatched by Lt. Pace to go to 1509 Caldwell to investigate a DOA. I proceeded to that location and upon arrival was advised by the dispatcher that the correct location for the dead body would be Mexico and Musset. I went there. Upon arrival I was directed to a 1979 Dodge Van, of varying shades of brown, Texas license [REDACTED]. I observed that the van had some silver tape around the window's edge on the rear panel doors and along the outer edges of the door and between the closings. The picture window on the right hand side, nearest the rear also had silver tape covering all around the edge of the window. The right rear panel door was observed to have sustained some damage from some type of collision. The double panel doors on the right were opened. I observed a young latin female, having black curly medium length hair. At the time she was covered with a yellow sheet which had been draped to cover her. I removed the sheet. I further observed a contusion to the left eye; there was some blood about her nose area; I also observed some bleeding around the mouth and what appeared to be some contusions. I saw she had a gold tooth on the left upper tooth of her mouth. The woman's body laid on her right side and the lower part of her body laid up against a round wheel which is normally used to secure the spare tire. On the woman's upper left buttock area there was a bite mark which was almost a perfect circle formation. After Dr. Rupp arrived he moved the body and a large cut slashed on her back was observed. Also there was a possible stab wound, it appears to be what is usually called a "hesitation" cut, the skin is broken. There is also a slash mark on her right buttock. A copper penny is sticking to her back; also a possible pubic hair is sticking to her upper left buttock area. I observed that there was possible seminal fluid running down between her legs; and there also appears to be more fluid between her buttocks. Her right arm rested across her abdomen area; it had some blood smeared on the upper arm. Her left arm is tucked under her right side.

Outside of the van, on the grass lays a brown, with variegated colors, sandal. Its pair is observed in the van. The woman's feet laid near the spare tire which in turn was resting against the rear bench seat. A pair of little girl's white socks were laying close to her feet. I observed that the woman's left little toe was lacerated. On the brown bench seat, rear, near the left side of the van there was a pink plastic baby bottle laying on its side. The bottle was empty. Between the rear seat and the bar there laid on the floor an old rusty looking kitchen knife. On the bar there was an open Root Beer Can; In the bar sink I observed it to be full with empty dirty cups and plates. There is a woman's beige bra, strapless laying on the floor near the bar; also laying between the victim's legs and the bar is a four way lug wrench. Directly in front of the bar is a pair of women's high-heel sandals, black in color. On the right of the bar on the floor, laying between the bar and a captain's chair is a pair of men's cotten underwear, with a red, white, and blue design on the. On the Captain's chair, located behind the driver's seat is a pair of women's panties, white in color with a multi-colored print on them. There is also seen a Tampex, partially extending from the cylindrical cardboard container; it is a "Super" size and the tampex itself is crumpled but does not appear to be soiled. Also laying on the same chair is a box with "Fram" labeled on the outside. A pair of blue jeans also rested crumpled on the chair. Behind the driver's seat on the floor is an 8-track cartridge tape; an empty coke and Dr. Pepper bottle. Underneath the passenger seat, front, is a little girl's dress, white, yellow, and blue print design, in color. There is also seen a crushed empty "Salem" package, a comb, various polaroid photos, and a pair of little girl's brown shoes. To the rear left of the passenger seat is a blue jack stand and a red comb. There is a CB in the van; the glove box is opened; and I observed it to be littered with uneaten powdered do-nuts which looked stale; its littered with soiled paper napkins.

SUPPLEMENTARY REPORT FORM

S2-87 REV. 7/74

OFFENSE NO.: 120-021	OFFENSE REPORTED: Homicide	COMPLAINANT/VICTIM'S NAME Dalia Saucedo
-------------------------	-------------------------------	--

(Continuation page 2)

There are no keys in the ignition. There is a brush on the dash and numerous papers. On the panel door to the rear of the passenger door in the drink holder is observed an opened bean dip, still having some content in it. In the second holder is an unopen Schlitz Beer; in the third holder is a man's black nylon sock.

The van was parked in a brushy area with tall weeds and is about two feet from a fence. There is a gravel road leading off the street. The van is about 43 9/10 feet from the edge of the gravel roadway. I also saw that the van did not have a gas cap. Instead a pair of blue and white jogging shorts are stuffed into the gas tank.

At the scene were Lt. Graham, Capt. Wimbish; Lt. Malcom Pace, Officer R. M. Boos; Sgt. R. Caceras; Sgt. Randy Walker; I.D. Officer Sara Cooks who processed and photographed the scene; Medical Examiner Dr. Rupp and Medical Examiner Assistant G. Risor. Crest Ambulance transported the body to the Morgue.
