

POLICE DEPARTMENT
CITY OF CORPUS CHRISTI
COUNTY OF NUECES, TEXAS

Before me, the undersigned authority, on this the fourth of February A.D. 1983

personally appeared George Aguirre, address 1754 Morales

age nineteen, phone number 853-1376

My name is George Aguirre, age nineteen. I live at 1754 Morales, telephone 853-1376. I am a student in San Antonio, Texas. On Friday, February 4, 1983, I was alone and went to the Shamrock, 2602 South Padre Island Drive to get gas in my van. It was a little after 8:00PM when I arrived at the Shamrock. While I was pumping gas in my van I seen this guy standing by the ice machine. He was Hispanic male, five feet ten inches tall, one hundred and seventy five pounds, dark hair, about twenty three or twenty four years old. He had on blue pants and I think a white long sleeve shirt. I seen him put a knife in his left front pocket. It could have been a locking blade, because I seen the blade when he put it in his pocket. As he put the knife away he started to walk towards me as he approached me he asked me to give him a ride to the Casino Club on Port. He said he would give me money, beer, dope, or whatever I wanted, just to get him over there. I said no, I did not want to. He said, "Well if that is the way you want to be," so he just walked back to the ice machine. He had a beer in his hand. I don't remember if it was a bottle or can. I finished putting gas in my van and went inside to pay the clerk. While paying the lady I told her about that man with the knife outside. She asked if he was with me, I said no. I told her I was going to go down the street and call the police. She said for real and I said yes. She then said she would call them. So I heard her call the police and when she did I started to walk out toward my van and I seen the man I just spoke of in this statement as having a knife walk into the building. I went on and got in my van and left. I went west on South Padre Island Drive to Ayers and under the freeway and the back east towards Kostoryz as I passed the Shamrock I looked over and I seen the lady clerk and this guy with the knife struggling inside the building. So I went right off the freeway on Kostoryz to the Gulf Bowl where I contacted the security guard. I don't know his name. I asked him if there was anyway he could get in touch with the police. Right away, he said no. He said all he could do is call them on the telephone. I told him the lady at the Shamrock needed help bad, that she was struggling with a man, but he did not do anything so left and went back to the station to see if I could help. And when I got there the police was there and the lady clerk was laying out on the ground with blood all over her. While I was still there the police came up with this man I have spoke of in this statement who I seen with a knife and also who I seen struggling with the lady clerk. They stood him out beside the patrol car and asked if I could identify him. I did positively identify that man as the same one I seen just a short while before struggling with the lady clerk and having a knife; however now he did not have a shirt on. I went to the police station and spoke to Sergeant Garrett and gave him this statement. Sergeant Garrett told me the man I identified was named Carlos Daluna. This statemet is true and correct to best of my knowledge and given to Sergeant Garrett of my own free will. End.

Subscribed and sworn to before me on this the 4th
