

**Teresita Perez Vela**

**Kate Weisburd phone interview**

**5/13/05 11:55-12:10pm**

Said she didn't remember CH, CDL, Pedro Olivarez, Jesse Garza, Paula (Paulie) Hernandez, DS, WL or what Beto Vela's relationship was to anyone. Said she has memory problems and doesn't even remember people on the street now - obviously may just be trying to avoid talking but she didn't budge. She said of course she remembered Linda Perales b/c she was married to her husband, but didn't remember anyone else. She also said she was married to Vela '76 or '77 - '79 and when they were married he didn't let her out of the house. She had met him at the club and he kept going once they were married but didn't let her go. It's ok for me to call back next week to see if she's remembered anything but she doesn't think she will.
