Dear Sgt. Escobedo:

On February 9, 1983, you personally submitted the following:

1. U. S. currency, five dollar bill, serial #B12101408B
2. A pair of men's black pants
3. One pair white tennis shoes
4. One long sleeve men's shirt.

It was requested that examinations be made to determine the presence of blood on the submitted items, and, if present, the origin and type.

We have completed our examinations and wish to report that human blood was found on the five dollar bill, however it did not respond to tests for type.

No blood was found on the pants, shirt, or shoes.

Yours truly,

James F. Waller, Jr.
Supervisor, Chemistry Laboratory
